LIGHTING & DESIGN

Lighting for Your  
**Lifestyle**  
Change the way you live in your home.

Lighting is probably the most overlooked design element in home building and remodeling. Lighting may be fundamental to your home's electrical system, but it's a key component of your home's interior and exterior design.

Our showrooms focus on your needs – how you live in the spaces of your home. Our team of professionals are certified in lighting design applications, latest styles and trends in design, as well as today's residential technologies from smart and wireless lighting controls to the latest in energy saving LED lighting.

Our goal is to help you through the process of lighting your home to reflect your lifestyle. We will provide expert recommendations based on room design, space, and personal style. By partnering with recognizable lighting design suppliers, our lighting and electrical products offering is broad and fits almost any project budget.

## One-on-One Lighting Consultations

1

### Schedule

Call or go to our website to schedule a consultation.

2

### Prepare

Write down room details: size, style, function, layout, etc.

# Consider your lifestyle...

## Room-By-Room

Each room of your home has a unique function and style. What you do in the living room requires different lighting than what you do in the kitchen.

### Latest Technology

- LED (energy saving)
- Smart Home Products
- Dimming (lifestyle)

### Bathroom

- Functional Lighting
- Task-specific (make-up/shaving)
- Dimming (powder room elegance)

### Outdoor

- Curb Appeal
  - Correct lantern sizing
  - Landscape lighting
- Safety (walkways/steps)
- Security (motion sensing)

### Kitchen

- Light layering -
  - General (recessed)
  - Task (undercabinet/island)
  - Accent (glass cabinet/toe-kick)
- Dimming (specific activities/mood)

Lighting can change the way you live in your home.
